**SAY YES
THRIVE!**

WHY YOU SHOULD SAY YES TO THIS LIFE-TRANSFORMING OFFER?

Do the colours of your clothes work for or against you?
Have you ever looked in the mirror and felt dull?
Do you want to wear more colours but are not sure about which ones suit you or how to wear them?
Or do you open your wardrobe and think,
"I HAVEN'T GOT A THING TO WEAR"?

DO ANY OF THESE SOUND FAMILIAR?
If so, read on...

One of the biggest advantages of colour analysis is that you wear the colours - the colours do not wear you. This can help you look younger and healthier and feel more energised. With colour analysis, it is easier to shop for clothes because You know what colours suit YOU!
You will own a more co-ordinated wardrobe: i.e., fewer clothes but more outfits.

AND, AS A RESULT

YOU WILL SAVE MONEY!

Cultivating a Sense of Self-Worth and Happiness Through Holistic Image Consultancy

One of my Colour Me Beautiful Services is A Colour Analysis Session:

Colour Analysis reveals the colours that suit you best and provides you with the empowering knowledge and confidence necessary to make wise choices when choosing the colours of your wardrobe:

- ✚ Discover how your natural colouring is complimented by some colours and obscured by others.
- ✚ Learn about your dominant colouring and how to match clothing colours, accessories and make-up to harmonise with it.
- ✚ Find the colours and clothes that communicate your image clearly and eloquently to others.
- ✚ Understand how to make the most of your existing wardrobe and introduce subtle changes to it through imaginative use of make-up, accessories and creative combinations of clothing.
- ✚ Gain insights into the power of make-up to project your personality and the art of using it to refine and enhance your image.

'Say Yes' to a brighter life with my Colour Analysis Consultation!
